MEMORANDUM FOR: Acting Director of Strategic Research
SUBJECT : OASD(I) Planned Studies

1. I recently received this list of OASD(I) planned and current studies from Tony Cordesman on an informal basis. It is not entirely clear what status these projects have within the Pentagon, although the imprint of Andy Marshall is certainly apparent. OSR divisions have probably run across and may already be involved in some of them. Some may be new. Many of them touch directly on our interests and the list as a whole suggests something of the scope and direction of the DOD net assessment effort. In any case, the studies list may be useful for office and division planning as an indicator of possible DOD intelligence requirements or simply as an inspiration to future research projects in OSR.

2. I do not know why the list is stamped "Eyes Only." In any case, we should treat the material as privileged.
